

Promotional Lapel pins & Button Badges

Below Left: Hard Enamel, Imitation Hard Enamel (IHE), Soft Enamel, Soft Enamel with Epoxy, Printed & Contour-cut!
 Processes explained:

Hard Enamel: made from glass based enamel colours and more hard wearing as the badges are fired at a higher temperature however, Pantone colour matching is not possible. Enamel colours are separated by thin key-lines;

IHE with overprinting: Allow for fine detail & colour matching;

Soft Enamel: made from plastic enamel colours with Pantone colour matching possible.

Enamel colours are separated by thin key-lines;

Printed Badges: These badges allow for fine detail and can be die-cut to any shape.

Plating options for all the above with a choice of clutch or pin fitting.

Quotations subject to quantity, size & sight of artwork.
